PROTECT YOUR OLD GROWTH INVESTMENTS  
WHILE SOWING SEEDS OF NEW OPPORTUNITIES

Modern network deployments require multiple technologies,  
multiple vendors, and careful design. Financing those  
projects should not slow momentum or force compromises.

## WHAT THIS MEANS FOR **YOU**

- Engineering-assisted network design and BOM creation
- Finance the entire project BOM, not isolated components
- One application and one approval path
- One predictable payment structure
- Preserve capital while maintaining deployment timelines
- 0% interest during the promotional term

## TYPICAL BUNDLED BOM

- Access & distribution radios
- Backhaul & transport
- Fiber & passive connectivity
- Power, cabinets, racks & site accessories

## HOW IT WORKS

Engage with our engineering team to  
build and validate the complete project  
Bill-of-Materials

Align eligible products under ONE financial umbrella.  
Apply ONCE and deploy with 0% financing.

*Terms and conditions apply.*

FINANCING PROVIDED BY  
**LEAF**<sup>TM</sup>

# ONE PROJECT. ONE PAYMENT. 0% FINANCING. 24 MONTHS.

FROM DESIGN TO DEPLOYMENT -- With or Without BEAD

This program combines expert engineering support with multi-vendor 0% financing, enabling customers to design the right solution, build a complete bill of materials, and finance the entire project under one coordinated umbrella—even if BEAD funding was delayed, reduced, or not awarded. In addition, Winncom provides consultative support leveraging proprietary, multi-layered tools that identify unserved and underserved Broadband Serviceable Locations (BSLs), analyze competitors' existing network footprints, and highlight areas awarded through BEAD funding to inform targeted, data-driven expansion strategies.

## PARTICIPATING MANUFACTURER PARTNERS

### ENGINEERING, CONSULTING & SUPPORT SERVICES

Creating Your Optimal Solution  
with our Professional

Winncom's senior-level RF engineers are experienced and proficient in start-to-finish RF design and engineering services and are ready to offer their expertise to ensure that your network runs efficiently, reliably, and cost-effectively.

### DIDN'T WIN **BEAD** FUNDING?

Not a problem. Strong network plans should not depend on a single funding outcome. Start with your design — we'll build the BOM and align the financing.

Financing subject to credit approval. Program availability, terms, and eligible products may vary by vendor and region. Limited-time promotional offering.

### BROADBAND EQUITY, ACCESS, & DEPLOYMENT PROGRAM
